

LOOK WHAT GOD IS DOING

March 2021

CASTING ALL YOUR ANXIETY ON HIM, BECAUSE HE CARES FOR YOU. 1 PETER 5:7

To the Ends of the Earth

Our Lord is overwhelmingly passionate to get His GOOD NEWS to every soul, to every tribe, nation, tongue, and creature. He has called His church to continue His mission and be His messengers. He pleads that we plead with almighty God to send out workers into this big field to harvest the fruit in every corner of earth. He passionately wants to bring all souls back into a relationship with Him. He passionately wants all to repent and to know His Son Jesus and be saved from the punishment to come. YOU ARE A PART OF THAT PLAN! You are to be taught and saved or to seek and bring others to that salvation in Jesus. Who will you bring to Jesus this year? How will you do that? World Bible School is so blessed to be able to find some 1,000,000 people per year who are willing to be taught the GREAT NEWS. Most of them are very poor and have no means to learn online but they still can learn by reading the printed word and they will if we are willing to get it to them. Well over 80% of all WBS's students are STILL studying by printed lessons from WBS's series about the Master. Many thousands of souls are literally fall in love with the Master Jesus and being baptized into Christ each year.

This is a young South Sudanese man outside of his hut in a refugee camp in Uganda. He is reading the WBS course "Born of Water and Spirit". When he finishes answering the questions, it will be sent for grading. Fortunately, we are now set up and ready to scan it and send electronically to your congregation to be graded. Will you help us to get this to work well? We need a person in each congregation to help with printing and scanning and we need several brothers and sisters to grade the lessons and to send simple notes to befriend and encourage each one of these students. Will you help?

South Sudanese Refugees in Uganda

Since my last report (please forgive me for the delay in reporting) God has blessed this work with good fruit.

Also our brother John Jock in Kampala, Uganda continues to do a great work among the South Sudanese there.

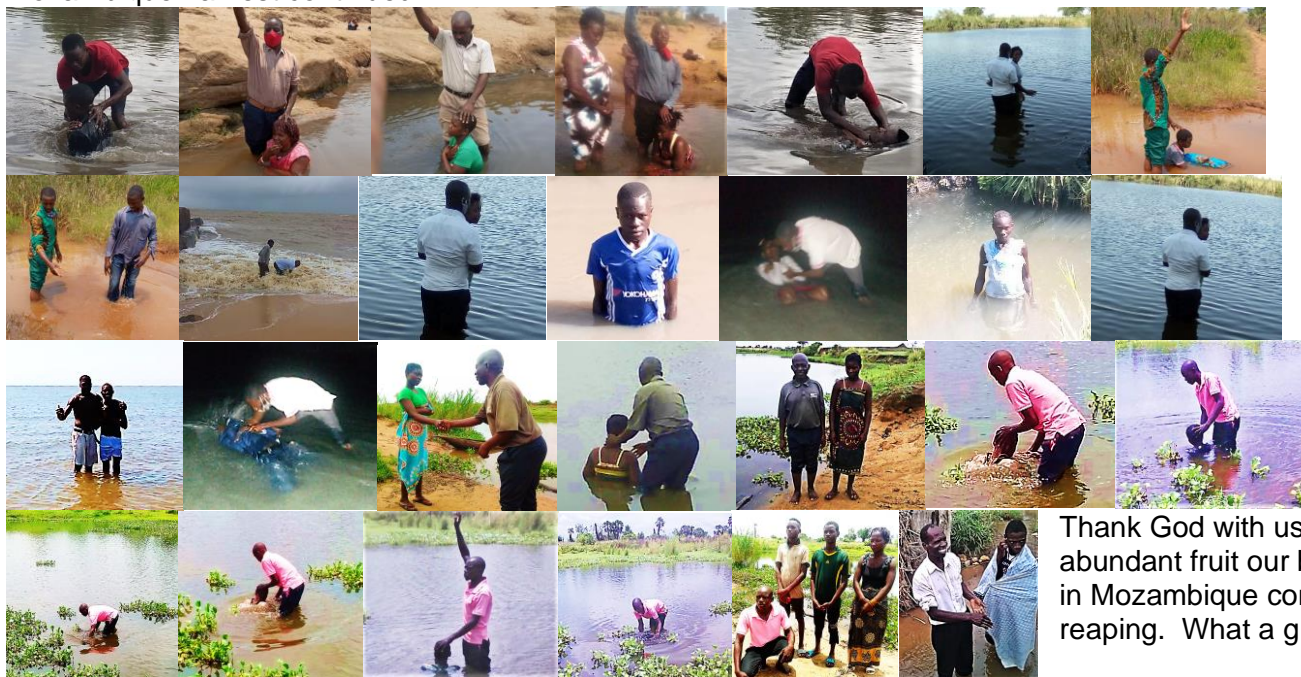

Mozambique Harvest

During these last few months many continue to come to Jesus in Mozambique especially from Beira, Moatize, Mutarara and all around the area of Inhangoma.

Mozambique harvest continued:

Thank God with us for the abundant fruit our brothers in Mozambique continue reaping. What a great joy!

EBM Mozambique

Lourenço and Milione have been working so hard in so many ways. Lourenço has been printing WBS (EBM

ou Escola Bíblica Mundial) courses in Portuguese. Printing prices in Mozambique are prohibitive but we are discovering that we can actually print the courses ourselves.

Several Churches Seeking to Please God

All of these new churches are in village areas (not in the cities) where we have our schools for training evangelists. Please pray for them that they continue to grow and mature.

More Bible Equipping

On the left is the school in Chandame and in the middle, the school in Inhangoma. These two schools taught in the local languages and are very evangelistic. The Online Bible Institute (“IBO”) continues equipping Mozambicans. Of course COVID has hampered all of the work but IBO continues to some degree. Presently Brazil is shut down and Mozambique is opening up some. That keeps changing as it has been doing here. All of these schools are SIBI International schools and that has been made official and updated recently with SIBI International Director, Doug Reeves.

Helping Those in Need

During recent months we have had a cyclone, and high winds and flooding that destroyed crops homes and church buildings. We are very indebted to many of you who have seen my ongoing Facebook posts and sent relief for many to survive. Many of you have helped replace or reparaire homes and church buildings and together, we have fed hundreds of hungry. Thank you so very much for your loving, generous hearts. You have also helped provide dozens of touchless thermometers which has allowed dozens of churches to meet together. The last picture is our brother Cambeua, teacher at the school in Chandame with 5 of them.

WBS Service Center Brazil

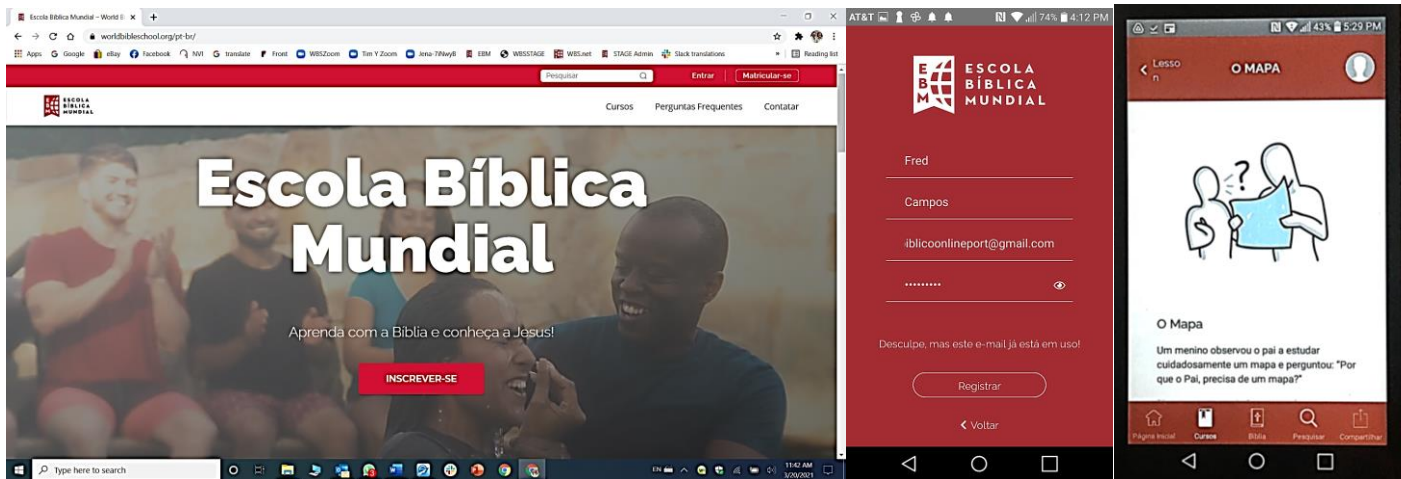

We have been working gradually to get the new WBS Service Center set up and running. Our SC Coordinator, Daniel Amaro, is doing a great job of setting up the new office in the “School of the Bible of Bahia, where the Bonocô church of Christ in Salvador meets. We now have printed 10,000 copies of the introductory course, “The Way to Life” and 5000 copies of the second course, “God Has Spoken”. Half of these were sent to the stock in Belo Horizonte, which were printed by Charlie Huffman many years ago and we are waiting for them to send half of their stock to us so we can distribute more evenly throughout all of Brazil. Daniel Neinar in Belo

has been working to supply courses to some great works in Brazil’s southern region, especially among some exciting prison ministries. They no longer had the initial courses, so God has blessed us to have this partnership so we can help one another. Although we are prepared to send out these courses by correspondence by post, we expect that Brazilian students will study WBS courses predominantly online.

EBM Online and New WBS Lite App

I am super excited about World Bible School’s “Reboot”. Everything has changed and improved. The new site www.worldbibleschool.org (Portuguese: www.escolabiblicamundial.org) is very powerful with lots of new features. With these many new features comes lots of learning and getting used to this new platform.

For some of us who are slower catching on, it is a challenge, but a challenge well worth accepting. On the left is the brand-new site (where the student's signs up). In recent months, much of my time has been spent in translating and trying to give technical support for students and Portuguese speaking Study Helpers and trying to help Daniel Amaro learn to do all of this as well. It is certainly not my forte but if this is what it takes, I'll do my best. All advertising was suspended for the merger of millions of data details to be moved from the old site to the new one and ads in Portuguese will be resumed soon. I fear we will be overrun with new students. At this time we are working to recruit new Portuguese speaking Study Helpers. On the right are two photos of the new cell phone app for students (Study Helpers only use the website and not the app. WBS Lite is only for students. In a few months, we hope to launch the WBS App - Full App). This WBS Lite App is already in operation in English, Portuguese, Spanish and French.

THANK YOU

We are so grateful for all of your concern, prayers and loving support. May our gracious Father pour his richest blessings on you.
